HOW DOES ISLAND OF TREATS WORK?

Island of Treats designed their patent pending retail display unit focusing on providing the franchise operator ease of assembly and convenient daily operation. The kiosk features a built in self-contained commissary plumbing system and a "plug & play" electrical setup that will get you started serving customers in no time! Assembly of your unit takes approximately eight hours, once the kiosk is completely fabricated and delivered to your approved venue. Enabling you to be open within days after installation is just part of the extra *sweetness* Island of Treats has to offer.
